THE COOK-STOVE QUESTION AGAIN.

The following letter has been received from Mr. A. M. Valentine, which we publish with pleasure:

To the Editor.

JANESVILLE, Sept. 24th, 1888.

Referring to your editorial of Friday last, I beg leave to say that if you will consult the tariff laws you will find that the tariff upon stoves is 47 per cent. Upon a stove therefore, worth $35, the tariff tax is $16.45. This is the point I made in my communication to the Recorder to which you take exceptions, and for which you say that I am a young man who lacks discretion. However that may be I again request that you inform the readers of the Gazette how this tariff tax of 47 per cent. upon stoves benefits any man, woman or child in the city of Janesville, and how the reduction of this tax on stoves, which the Mills' bill proposes to make, can injure any person in Janesville? As it seems to be necessary to give you the most elementary instruction, I would say that the tax of 75 cents a ton on iron is a different thing from the tax of 47 per cent. upon the finished product in the shape of a stove. I suppose you will hardly question the law itself. I trust that you will oblige me by giving this publication.

Yours respectfully,
A. M. VALENTINE.

The Gazette confesses that it really does not see "how a tariff tax of 47 per cent. upon cook-stoves benefits any man, woman or child in Janesville."

Now "as it seems to be necessary to give the Gazette the most elementary instruction on the tariff," and as that instruction will be received with great thankfulness, will Mr. Valentine please inform the Gazette—

1. How he knows that there is a tariff tax of $16.45 on a cook stove that is worth $35?

2. Where in Europe are cook stoves made?

How many, and of what value, cook stoves were imported into this country last year, or any previous year?

Then again, the Gazette seeking "most elementary instruction" on the question of the tariff, wants to ask another question. Mr. Valentine said that reapers or mowers, or something of that kind, could be manufactured some 50 per cent cheaper if the duty on raw material could be removed. Will Mr. Valentine tell us how much the duty is on the iron or steel that goes into a reaper or a mower? And also how much the tariff is on the work that goes into a reaper or mower? And if reapers or mowers could be made so very cheap with free raw material, what is the difference between the price of reapers or mowers in this country and in Europe? These questions are of vital importance, although they may seem to be of a very elementary character to our correspondent.

WISE REPUBLICAN RECRUITS.

John S. Defarges, late democratic chairman of King William county, Virginia, has come out boldly for Harrison and protection.

The Hon. E. H. Ives, editor of the democratic Pierce County Plaindealer, Prescott, this state, voted for Grover in 1884, but will not repeat the dose.

Mr. F. Warren, of Trenton, Dodge county, Wisconsin, has declined the nomination for sheriff on the prohibition ticket. He will vote for Harrison and protection.

James Swift, a prominent farmer near Bloomingville, Indiana, and his son, John Swift, have forsaken the democratic party and will vote for Harrison. Mr. Swift thinks there are more than enough with him to make Indiana safe.

Seven hundred glass-workers of Findlay, Ohio, will this year support the republican candidate for the presidency, regardless of former political affiliations. The majority of these men voted for Cleveland in 1884, but this year will vote to protect themselves.

William Lakin, of Jasper county, Indiana, has always been a rock-rooted democrat. He was a soldier in the late war, and the rebel flag order and Cleveland's pension vetoes have thoroughly disgusted him with democracy. He is now working and will vote for Harrison.

In St. Clair county, Illinois, quite a number of democrats have come out for Harrison. Among them are Henry Bevirt and his brother Hezekiah, old soldiers and life-long democrats. Both are opposed to Cleveland on account of his pension vetoes. J. W. Seifert, liveryman, and his two sons, always democrats, will vote for Harrison on the tariff issue.

John Schrader, a carpet dealer of New Albany, Indiana, recently told M. B. Custard, a Chicago traveling man, that although he had been a democrat all his life; he intends to vote for Harrison in November. Mr. Schrader has five sons of voting age, and they will follow their father's example. Mr. Schrader, who is one of the most substantial and respected citizens of New Albany, says he cannot stand the present democratic policy on the tariff question. Mr. Schrader says he knows twenty good men in New Albany who, though formerly democrats, will now vote the republican ticket.

George W. Gibson of Marion, Indiana, is the second member of the Grant county bar to renounce democracy and announce himself for Harrison and protection. Mr. Gibson was elected state's attorney of his district as a democrat in 1882, and in 1880 was the candidate for senator from Grant and Blackford counties, being defeated by only fourteen votes, in both instances running far ahead of his ticket. He served four years as a private, in the Tenth Indiana, and was wounded and captured at Gettysburg.

"An old resident of Queens county, New York," writes to the Chicago Tribune: To your list of democrats who have declared for Harrison and protection I wish to add the name of "Toney" Miller, a leading and influential democrat of Long Island City, Queens county, N. Y. Mr. Miller has always been a democrat and a liberal subscriber to the democratic campaign fund. His hotel, the principal one in the county, has always been the headquarters of the democracy and he was their leader, always engineering the campaigns of Perry Belmont, congressman from that (the First) district. He states that he is not a republican, but cannot stand Cleveland and the Mills bill. He is a man with hosts of friends, and will be followed into the republican camp by a large number of democrats who swear by "Toney," and so they come.

Nick Moran writes from Brodhead to the Chicago Tribune: Four years ago I worked for the election of Grover Cleveland with all the zeal I could muster, and won. But now I see the situation differently, and desire my name enrolled as a member of the republican party. And I am not alone in this, for there are thousands of Irish-Americans who have got their eyes open on the great political issues before the American people affecting the laboring man, and who will cast their vote for Harrison and Morton in November. And more than this: We as Irish-Americans should do no less as an expression of our gratitude to Levi P. Morton for his liberality and sympathy in sending a ship load of provissions at his own expense to our people in Ireland to relieve the then existing condition of starvation that was sweeping over our old homes. As we are bound by ties of nationality to the recipients of this grand and munificent charity, we should recognize in its grand humanity and should not hesitate to show our appreciation of such noble deeds of charity by casting our votes for Harrison and Morton.

IT'S SO ENGLISH, YOU KNOW.

From the Los Angeles Tribune.

Step up, ladies and gentlemen, and inspect the wonderful Mills machine, which is guaranteed to make every one rich, healthy and happy! Drop a sovereign into the slot and hear the automatic band play "Rule Brittania!" Step up now, and avoid the rush! Doors close promptly on November 6, so don't delay!

Another expedition having for its object the recovery of treasure lying at the bottom of the sea has come to grief. This particular speculation was to enrich those engaged in it by placing them in possession of the cheats of gold that went down with the good sloop-of-war Brank. The speculators started out on the expedition full of hope—there was no doubt about it this time. But to-day, the search is abandoned, they are no better off than those whose only visible means of support is the fact that they are heirs of Anneke Jans. By the way, is it not about time for those whose avocation is digging for the personal property of the late Captain Kidd to resume active business? Those royal roads to wealth are almost as disheartening as Wall street.

A democratic paper, The Nashua, N. H., Gazette, is perpetrating a particularly mean lie by printing what we take to be the Know-Nothing oath, with the name of Benjamin Harrison attached. The Gazette knows that there is not the slightest foundation for this, and it admits it by making the charge only by implication, without daring to put it into words. It is an instructive fact that the mean campaign lying this year has all been directed against General Harrison. This is a poor return for the extraordinary forbearance the republican press has shown toward the democratic candidate.

There has been a singular tribute in the United States Senate to the growth of temperance sentiment in the country. Senator Morgan, of Alabama, was moved by certain remarks of another senator to obtain a certificate from twenty of his colleagues that they had never seen him in a state of intoxication. Time was when such an accusation would not have been thought to be worth such an elaborate refutation, and no doubt the time will come when more senators will be able to command such certificates.

"At the end of another four years," says Mayor Hewitt, "the people will be glad to call the republicans back to power." Oh no; thank you. Four years of Cleveland are quite enough. The country doesn't care to wait till 1892 before making a change. Why should it?

This campaign never got to be really enjoyable until Judge Thurman began his present remarkable series of speeches proving that the democratic party abolished slavery. Keep it up, Old Roman! Your contributing to the gayety of one nation at least.

A REIGN OF TERROR.

It Is Inaugurated by Yellow Fever's Progress in the South.

VICTIMS OF THE SCOURGE ON MONDAY.

The New Cases at Jacksonville Number 113; Deaths, 5—The Entire Traffic System of the South Paralyzed by Quarantine.

FRIGHTENED BY THE FEVER.

JACKSONVILLE, Fla., Sept. 25.—The yellow-fever bulletin for Monday showed 113 new cases and 5 deaths. Total cases reported to date, 1,951; total deaths, 217. It is impossible to approximate the number of cases that have not been reported to the Board of Health. One physician has had over 130, few of which have been reported.

A special from McClenny says three new cases occurred there. Plant City is free of fever, and people have been admitted to the place for the first time in sixty days.

FERNANDINA, Fla., Sept. 25.—Yellow fever was officially declared yesterday to be here. The Board of Health issued the following bulletin:

"The Board of Health announces that the result of an autopsy held at 12 m. this day on the body of Mr. Hood demonstrates the existence of yellow fever in this city."

DECATUR, Ala., Sept. 25.—State Health Officer Corcoran reports that no new cases have occurred. We have plenty of doctors and need no help at present. There have been five deaths to date, and of the fifteen persons now sick only four are dangerous. The situation is very encouraging. Stores are being reopened and confidence restored. Hotels and restaurants are feeding all applicants whether they have money or not.

JACKSON, Miss., Sept. 25.—There have been no new cases or deaths since Sunday morning. The total population is 1,791—three-fourths colored. The Howard Association is receiving some financial help and has secured some supplies. No mails are allowed to leave here; mail matter may be received from one train every twenty-four hours as it dashes by. Two car-loads of tents arrived here at the asylum switch. The first case of fever in 1878 occurred August 31; the first death September 3 and the last death November 28. The total number of cases was 490; the total number of deaths, 84.

JACKSON, Miss., Sept. 25.—The fifth day of the epidemic opened with lowering skies, threatened rain and cold. We have had two mails in five days, no express and no probability of any being received. Medical stores are running low. Pike County (Miss.) people threaten to tear up the railroad track and burn the bridges unless the Illinois Central trains are suspended, so that we who have stayed are denied medicine, provisions and every thing needful. How long the telegraph force can stand the terrible demand upon their strength is a problem we are studying. The one bright spot is the action of the people of Sharon, Tenn. Dr. Guilbert received the following from the refugee train that left here on Friday night:

"Not a station has permitted us to stop since leaving Jackson. About a mile from Sharon, Tenn., the people placed baskets of lunch along the track, and we took them aboard. Besides this lunch we have only seen shot-gun quarantines. We are hopeful of getting to our destination some way or other. All well, but worn out."

NEW ORLEANS, Sept. 25.—A suspicious case of fever was reported yesterday about eighteen miles south of Jackson in the direction of Natchez. The party sick nursed Policeman Lorance, who died of the fever at Jackson on Thursday. There is also a suspicious case of fever at Miles Station on the Natchez, Jackson & Columbus railroads about midway between Natchez and Jackson.

LOUISVILLE, Ky., Sept. 25.—B. Grant, of Newark, O., who came in from Decatur, Ala., and is at the eruptive hospital, has developed more decided symptoms of yellow fever. Chattanooga and Memphis are both quarantined against Louisville, and Memphis causes an examination to be made of persons coming from west of the Mississippi, not admitting any from points where refugees having the fever have stopped.

CAIRO, Ill., Sept. 25.—There have been but four deaths from yellow fever this season in the valley between Cairo and the gulf, but the Illinois Central is losing $7,000 a day on account of them. Not a wheel rolls on the Mobile & Ohio. Seven roads are shut out of Memphis. Steamboats after running the gantlet of shot-guns for hundreds of miles are tied up as fast as they arrive at the levees at St. Louis, and the entire traffic system of the South is paralyzed. Even as far north as Anna, in this State, these absurd quarantine regulations are enforced.

Secretary John H. Rauch, of the State Board of Health of Illinois, has arrived, and he is very sanguine as to the safety of Cairo and vicinity, and regards the present quarantine restrictions unnecessary. The sanitary conditions are satisfactory.

NEW ORLEANS, Sept. 25.—Only through trains on the Illinois Central are running, all local trains having been abandoned on account of the quarantines. All trains on the Northeastern railroad have been withdrawn because the authorities of Meridian, Miss., and York, Ala., refuse to permit trains to pass those points. Mail trains generally are abandoned, and as there is no rail connection now between Chattanooga and Memphis for Cairo mails have been delivered via Nashville, Montgomery and New Orleans.

Monday the Board of Health granted authority to run trains on the Natchez, Jackson & Columbus road, to carry nothing but freights and medicines and bring in cotton and cotton seed, but as soon as the order became public the people rose up en masse and declared they would tear up the tracks if the running of trains could not be otherwise prevented. The railroad company thereupon abandoned the project, and all employes of the road are likely to be suspended until the fever scare is over.

MEMPHIS, Tenn., Sept. 25.—The Board of Health authorities have determined to place the same restrictions on the railroads west of the river as have been enforced against those on the east side, and after 1 o'clock to night no passengers arriving at West Memphis on the Kansas City, Springfield & Memphis, Iron Mountain or Memphis & Little Rock railroads will be allowed to cross the river unless supplied with passes from the Memphis Board of Health. The militia force, consisting of members of the Chickasaw Guards, Memphis Merchant Zouaves and Schorr Zouaves, went on duty yesterday, and are now guarding all roads leading into Memphis.

All passenger trains on the Louisville, New Orleans & Texas railroad between Memphis and New Orleans have been abandoned and none of the other lines are running their usual number.

The Paris C. Brown, en route from New Orleans to Cincinnati, passed up at midnight with 250 passengers, principally from Greenville and Vicksburg. None were allowed to disembark. All were well.

ATLANTA, Ga., Sept. 25.—Chattanooga has modified her quarantine regulations so as to admit trains by the Western & Atlantic and East Tennessee roads, and those passengers are all right who have health certificates. All the roads from Atlanta are in active operation and not at all troubled by quarantine operations. A dispatch from Mobile says that the Mobile & Ohio road has stopped all through passenger and freight trains, owing to quarantine regulations.

ST. LOUIS, Sept. 25.—Many hundred refugees fleeing from the yellow fever arrived in St. Louis yesterday. All trains from the South have been crowded, and the hotels are all filled with the panic-stricken Southerners. No quarantine has been established here, and this great influx of refugees has alarmed the citizens, who are agitating for action by the city authorities.

EVANSVILLE, Ind., Sept. 25.—This city has not quarantined against the South and all arriving trains are loaded down with people fleeing from the fever. A large number of laborers employed in the Louisville & Nashville shops at Decatur have come here and gone to work on the shops of the same road, which are being built by the same contractor.

SIOUX CITY'S FESTIVAL.

The Annual Corn-Palace Exposition Formally Opened.

SIOUX CITY, Ia., Sept. 25.—The second annual festival of the Sioux City corn-palace exposition opened here at noon yesterday. An immense throng was present and the event was a marked success. Thousands of visitors were pres-

ent and the city is crowded. The programme included a grand concert by the Elgin (Ill.) Military Band, horse races and ball games. At night all of the large business houses were brilliantly lighted, and myriads of lamps in colored globes were suspended over the principal streets. The regular exercises will open to-day and a grand time is expected.

A BOMB IN THE PALACE.

Rumors of Another Attempt Upon the Lives of the Czar and His Family—An Attendant Badly Injured.

LONDON, Sept. 25.—Russian refugees at Berne have received advices from Russia giving an account of a recent attempt to assassinate a member of the imperial family. While some workmen were engaged in preparing for the occupancy of another official the room in the palace of the Grand Duchess Catherine Michaelovna formerly occupied by her secretary, General Hartman, they found a bomb concealed beneath some documents. One of them picked it up but the missile slipped from his grasp and, falling upon the floor, exploded. Both of the man's legs were shattered to atoms and the furniture and windows of the room completely destroyed. The other men were thrown down, but escaped without serious injury. The advices state that the newspapers were immediately forbidden to mention the occurrence. Meanwhile the police are on the track of a number of persons suspected of being instrumental in getting the bomb into the palace.

JUDGE FULLER HONORED.

A Banquet Tendered the Chief Justice at the Palmer House, Chicago.

CHICAGO, Sept. 25.—The banquet tendered to Chief-Justice Melville W. Fuller by the members of the bar of Cook County took place at the Palmer House last evening. Three hundred and seventy-five guests sat down to the banquet, which was presided over by Judge Thomas Drummond, who made the opening address. The toast, "Our Guest," was responded to by the Chief Justice-elect, who spoke at some length and evoked hearty expressions of gratification. Other toasts were "The Bench," responded to by Judges Gresham and Moran; "The Bar," responded to by W. C. Goudy, and "Commerce," responded to by Charles L. Hutchinson, president of the Board of Trade. The gathering comprised twenty-three judges of State and Federal courts and the most prominent lawyers and business men of the city.

Set Free.

DUBLIN, Sept. 25.—Mr. Alexander Blaze, whose release from Londonderry jail occurred yesterday, was liberated upon five minutes' notice by a telegram from Dublin castle, the prison doctor certifying that his life would be endangered by his further incarceration.

Senator Hearst's Missing Check.

NEW YORK, Sept. 25.—Notice has been sent out warning banks to stop payment of a check for $1,480, drawn by D. D. Withers to the order of George W. Hearst, the California Senator, and indorsed by him. The check has been either lost or stolen.

Wrecked Off the Newfoundland Coast.

NEW YORK, Sept. 25.—The famous clipper ship Dreadnought which, in 1862, sailed from Sandy Hook to Queenstown, 2,760 miles, in nine days, seventeen hours, has been wrecked on the coast of Newfoundland.

IN CONGRESS.

A Day Passed in Discussing Important Measures.

BOTH HOUSES TAKE A HAND.

Passage of the Deficiency Bill by the Senate—Yellow-Fever Legislation—A Reply to Mr. Cannon's late Speech in the House.

SENATE.

WASHINGTON, Sept. 25.—Among the executive communications received and referred was one from the Secretary of the Treasury stating the amount due the State of California under the act of June 27, 1882, as $11,723.

Senator Berry (Ark.), from the Committee on Public Lands, reported the bill allowing any person who has abandoned or relinquished a homestead entry before the expiration of the requisite six months to make another entry not exceeding a quarter section of land. Passed.

Among the bills introduced and referred were the following: By Senator Plumb (Kan.) offering a reward of $100,000 to any person or persons who shall discover the cause, remedy and treatment of yellow fever. By Senator Call (Fla.) for a commission of medical men in Jacksonville, Fla., to observe and report upon the facts relative to yellow fever, and the best method of its cure, prevention and suppression. In connection with the two latter bills Senator Harris (Tenn.) presented a telegram from Memphis, Tenn., attributing the existence of yellow fever in Decatur, Ala., and Jackson, Miss., to unrestricted intercourse between Cuba and Florida during the past two years; saying that they demonstrated the necessity of a perfect system of quarantine, and recommending the establishment of the National Board of Health. By Senator Chandler (N. H.), to authorize the sale of timber on certain lands reserved for the use of the Chippewa Indians in Wisconsin and Minnesota; also regulating the allotment of lands in severalty to Indians.

Senator Sherman's resolution (heretofore offered) for an inquiry as to the relations between the United States and Great Britain and Canada was laid over till to-morrow. The Senate bill restoring to the United States certain of the land granted to the Northern Pacific Railroad Company was taken up and Senator Plumb proceeded to address the Senate in favor of its passage.

The bill introduced a short time ago by Senator Manderson (Neb.) providing that soldiers who have made pre-emption or homestead entries of lands but have abandoned them shall have the right to make other homestead entries not to exceed a quarter section of land each was passed. The bill is amended so as to make its application general instead of confining it to soldiers.

Senator Stewart (Nev.) introduced a bill for the exclusion of Chinese laborers. It is very elaborate and comprises many of the provisions of former bills. The first section says:

"That the President be and he is hereby directed to notify the Chinese Government that the maintenance of the peace and good order of the people of the United States renders it necessary to abrogate so much of the treaty stipulations between the Chinese Government and the United States as relate to the entry into the United States of the Chinese race, and that no further treaties relating to that subject will be entered into by the United States, and that hereafter the coming of such laborers and their right to reside in the United States will be regulated and determined by the laws of the United States."

The bill then sets forth the conditions under which students and sight-seers may enter this country. "A provision of the bill requires every Chinaman now in this country, except the members of the Chinese Legation, to register and take out a certificate of registration within six months after the passage of the act, this certificate to be surrendered to the customs officers if the holder shall leave this country; and any Chinaman not having a certificate of registration in his possession at the expiration of the six months period is to be deported.

On motion of Senator Evarts (N. Y.) a bill was passed appropriating $10,000 for the completion of the monument commemorating the surrender of Burgoyne at Saratoga.

The Senate took up the General Deficiency bill, and a number of amendments were introduced. Among them was one by Senator Call (Fla.) appropriating for the widow of an internal revenue officer who died at Jacksonville of yellow fever the amount of his year's salary; also appropriating $20,000 for the purchase of a steam launch for the use of the collector of Key West, Fla., to enforce the maritime laws and to prevent smuggling.

After some discussion an amendment was agreed to inserting each of the items contained in the book of estimates but omitted from the bill except the items for the Pacific Railroad Company.

An amendment of Senator Teller (Col.) appropriating $276,000 for indemnity for Chinese outrages in the Territories was agreed to. A number of small amendments having been agreed to the bill was passed and the Senate at 5:45 adjourned.

[The Senate amendments and nearly $1,000,000 in appropriations to the bill. The principal new appropriations are $184,112 to reimburse Chickasaw lands for moneys improperly disbursed therefrom; $80,000 in further aid of the Industrial Christian Home Association of Utah; $77,038 for compensation of postmasters under the act of March 3, 1883; $414,695 for the New York Central Railroad Company, being the amount of a finding by the Court of Claims; $30,000 for a steam yacht for the collector at Key West, Fla., to enforce smuggling and quarantine laws; $150,000 for Government transportation by Baltimore & Ohio and Pennsylvania railroad companies and the Hoboken Land Improvement Company, and $270,000 for indemnity for Chinese outrages in the Territories. An additional section was also inserted in the bill extending all the criminal laws of the United States to "No-Man's Land" and placing that territory within the judicial district of Kansas.]

HOUSE.

WASHINGTON, Sept. 25.—On motion of Mr. Thomas (Wis.) a bill was passed authorizing the construction of a bridge across the Mississippi at La Crosse, Wis.

Among others, the following bill was introduced by Mr. Wheeler (Ala.) to establish a camp for yellow fever refugees.

[It authorizes the President to locate camps in such places as he may deem proper, and to equip them with tents, beds, camp equipages, medical attendance, medical stores, nurses, etc., to be supplied to the camps out of the $500,000 appropriated for the purpose. Provides that admission to the camps shall be regulated and governed by the officers placed in charge of the same, and that all camps infected by yellow fever shall be destroyed by fire after the epidemic shall have disappeared.]

Mr. Burns called up the conference report on the Sundry Civil Appropriation bill. Mr. Sayres (Tex.) being recognized proceeded to deny the charge of Democratic extravagance recently made by Mr. Cannon (Ill.). Mr. Sayres quoted statistics to show that the Republican Senate since 1882 had increased the amount carried by appropriation bills sent to it by the House $137,000,000, which the House had succeeded in cutting down to $60,000,000. The excess of expenditures during 1886, 1887 and 1888 over the expenditures for 1882, 1883 and 1884 amounted to $10,824,200. He quoted figures to show that under Republican administrations the expenditures for pensions, soldiers' homes and other items were greater than under Democratic administrations. Had it not been for excesses in pension appropriations and other expenses for which the Administration was not responsible the expenditures for the Democratic period would have been between $70,000,000 and $80,000,000 less than in the three preceding years of Republican rule. A further conference was ordered on the National Library clause of the Sundry Civil Appropriation bill, the report of the committee on the other features of the bill having been adopted.

Mr. Crain (Tex.) offered a resolution (offered by him some days ago but refused immediate consideration) empowering the Judiciary Committee to report at any time a bill for the suppression of trusts. Referred.

District of Columbia business was then taken up and a bill was passed prohibiting the sale or manufacture of adulterated foods and drugs in the District.

Conference reports were agreed to on bills to establish life-saving stations at the harbor of Kewaunee, Wis., and on the Atlantic coast between Indian River Inlet, Del., and Ocean City, Md.

Delegate Joseph (N. M.) introduced a bill requiring the Secretary of the Interior to cause a patent to be issued to the town of Las Vegas, N. M., for the lands known as the Las Vegas grant, situated in the county of San Miguel, Territory of New Mexico.

A bill was introduced by Mr. Chipman (Mich.) which provides that no person, who is not a citizen of the United States, who shall not have declared his intention to become a citizen and does not reside in the United States, shall be employed as a contractor or laborer on any public building, river and harbor improvement or other public work of construction carried on by the Government. A fine of $200 or six months imprisonment is the penalty for violation of the proposed act.

Mr. Holman (Ind.) reported from the Committee on Public Lands the Senate bill extending the laws of the United States over the public land strip. He asked immediate consideration, but was notified by the friends of the Oklahoma bill that it would require a quorum to pass it. Mr. Warner (Mo.) said that Mr. Holman had tried to kill the Oklahoma bill by voting for an amendment giving the lands in the proposed territory to soldiers without the payment of the price exacted on others. Mr. Anderson (Ia.) defended the amendment from the attack of Mr. Warner and said that it was offered in good faith. Adjourned.

BAZAINE'S BURIAL.

The Dead Exile Placed in the Tomb at Madrid—The Interment a Very Simple Proceeding.

MADRID, Sept. 25.—The funeral of the late ex-Marshal Bazaine took place yesterday. Three carriages contained the mourners, among whom was Marshal Campos, formerly Captain-General of Cuba. Five cabs followed the carriages. Twenty cards were left at the apartment of the dead exile, but no flowers were sent. His sword and epaulettes were the only insignia of his rank or calling placed upon the bier. A group of Frenchmen stood near as the hearse approached the cemetery, but they did not uncover their heads, though they removed their hats while another funeral passed a minute or two later. The French embassy had a representative present, who carefully noted the details of the burial.

LONDON, Sept. 25.—French newspapers comment harshly on the late General Bazaine. *Le Paris* says: "Let his corpse be flung into the first ditch. As for his memory, it is nailed forever to the pillory." German papers refer to Bazaine kindly and repeat that he was wronged by his own people.

THE HUNDREDTH YEAR.

Allegheny County Celebrates Its Centennial with Appropriate Jollification.

PITTSBURGH, Pa., Sept. 25.—The centennial celebration of Allegheny County was begun here yesterday morning and will continue three days. The hundredth anniversary was ushered in at midnight, with booming of cannons, ringing bells and the blowing of steam whistles. At 9 o'clock in the morning there was a parade of the old volunteer and present paid fire departments, police and visiting fire companies from surrounding towns. At 10 o'clock the magnificent new court house just finished at a cost of $2,500,000, was dedicated with appropriate ceremonies. Among the visitors are ex-President R. B. Hayes and wife and William Warner, Commander-in-Chief of the Grand Army of the Republic.

INVADED BY A MEXICAN MOB.

Rio Grande City, Tex., Asks for Military Aid—Fighting Hourly Expected.

WASHINGTON, Sept. 25.—A telegram from the Collector of Customs at Brownsville, Tex., dated the 23d and received in this city Monday by Acting Secretary Thompson, gave information that an armed mob had taken possession of Rio Grande City on account of the killing of a Mexican by a customs officer, who went to Fort Ringgold for protection. The civil authorities of Star County were reported powerless, and a request made for orders to be telegraphed for the military at Ringgold to protect the custom house and city. Secretary Thompson replied by asking if troops were still needed Monday, and not receiving an answer did not take any action.

A Famous Case.

ST. LOUIS, Sept. 25.—In the United States District Court yesterday, Judge Thayer heard argument upon the motion for a new trial of the famous damage case of David Fotheringham against the Adams Express Company, which grew out of the robbery in which Fred Wittrock, alias "Jim Cummings," played the leading part. Fotheringham sued the company for unlawful arrest and detention and obtained a verdict for $30,000 damages. Judge Thayer decides that Fotheringham must within five days remit $8,000 of the amount of the judgment, or the motion for a new trial will be granted.

Murder Was in His Mind.

CHICAGO, Sept. 24.—Wolert Johnson, aged 34, who has been partially insane for two years past, and who lived at 3208 La-Salle street, assaulted his aged mother yesterday with a butcher-knife, cutting two horrible gashes in her throat that will undoubtedly cause her death. Johnson then went to the wood shed and hanged himself, but was cut down and resuscitated. He is now in jail and seems to have recovered his senses. He remembers nothing of his crime, and expresses great sorrow for his action.

Removal British Diplomatic Changes.

LONDON, Sept. 25.—A rumor is current that Sir R. D. Morier, the British Ambassador at St. Petersburg, has been appointed Ambassador to the Austrian court, and that he will be succeeded at St. Petersburg by Sir Lionel Sackville-West, now British Minister at Washington.

A Big Loan Negotiated.

CONSTANTINOPLE, Sept. 25.—The Porte has obtained a loan for $5,000,000 from the Deutsche Bank of Berlin, on condition of granting the concession of extending the Scutari-Ismid railway to Angora.

Made a Hog of Himself.

WILKESBARRE, Pa., Sept. 25.—John Walters drank two quarts of whisky yesterday and then dropped over, dead. He with a number of other miners had been on a spree since Saturday.

An Opera-House Burned.

PESTH, Sept. 25.—The Royal Opera-House in this city took fire last evening and was totally destroyed. There was no performance and consequently there were no casualties.

Careless Mothers.

Many mothers have permitted their children to die before their eyes when they might have been saved. Any mother who keeps house without a bottle of Acker's English Baby Soother at hand, runs a risk which she may regret. It has saved the lives of thousands of children, and is doing so every year. More cases of sick headache, biliousness, constipation, can be cured in less time, with less medicine, and for less money, by using Carter's Little Liver Pills, than by any other means.

I have been bothered with catarrh for about twenty years; I had lost sense of smell entirely for the last fifteen years, and I had almost lost my hearing. My eyes were getting so dim I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did, my sense of smell is partly restored, and it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for catarrh. Mrs. E. E. Grimes, 67 Valley St., Perry Co., Ohio.

Dyspepsia, Despair, Death.

These are the actual steps which follow indigestion. Acker's English Dyspepsia Tablets will both check and cure this most fearful of diseases. Guaranteed by Prentice & Evenson's, druggist.

A WARNING.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous, and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose your own life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

"Nearly Everybody Reads It."

The Merchant reads the Chicago Daily News because he must know what's going on in the great business centres of the world, and he can't waste time hunting for it in a "blanket sheet."

The Farmer reads the Chicago Daily News because he makes more than $3.00 a year—one cent a day—by keeping promptly posted on the variations of the market,—he doesn't wait for the slow weeklies any more.

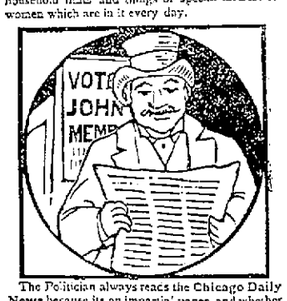
The Mechanic reads the Chicago Daily News because he knows that even in matters of handicraft the more general intelligence a man has the more he'll earn. The workingman can well afford his daily paper at "one cent a day."

Grandfather reads the Chicago Daily News because it gives all the news, and yet so condensed that it doesn't tire him out to read it. And then, the print is so clear.

Mother reads the Chicago Daily News because she wants to keep up with her husband in general information, and then she particularly enjoys the household hints and things of special interest to women which are in it every day.

Grandmother reads the Chicago Daily News because she still wants to know what's going on. And it's a comfort to see a daily paper in the family that's clean and pure,—one she's not afraid to have "the children see."

The Boys all want the Chicago Daily News because it gives the base ball news so fully,—to say nothing of all the other things boys enjoy. And this year even the boys don't skip the political news.



The Politician always reads the Chicago Daily News because its an impartial paper, and whether he likes its independent views or not, he wants to know the *truth*. He "supports" his particular party "organ," but when he wants cold *facts* he reads the CHICAGO DAILY NEWS.

The Girls all read the Chicago Daily News because they're specially interested in its chatty gossips about fashions and home matters, to say nothing about the excellent serial story always running.

The Post Office Review, says: "Nearly everybody who reads the English language in, around and about Chicago, reads the Chicago Daily News." Do you? It's a "short and to the point paper,"—made particularly for busy people, and it costs one cent a day. All newsdealers sell it, and all postmasters forward subscriptions for it at $3.00 a year, or $1.00 for four months. Address

VICTOR F. LAWSON, Publisher The Chicago Daily News, Chicago.

SUPERFLUITIES.

They Are a Hinderance Rather Than a Help.

A Dwarf on the Right Side Stronger Than a Giant on the Wrong—Sermon by Rev. Dr. Talmage, D. D.

"Superfluities a Hinderance" was the subject of Dr. Talmage's recent sermon, his text being taken from the sixth and seventh verses of the twentieth chapter of First Chronicles: "A man of great stature, whose fingers and toes were four and twenty, six on each hand and six on each foot; and he also was the son of the giant. But when he defied Israel, Jonathan, the son of Shimea, David's brother, slew him." The sermon was as follows:

Malformation photographed, and for what reason? Did not this passage slip in by mistake into the sacred Scriptures, as sometimes a paragraph utterly obnoxious to the editor gets into his newspaper during his absence? Is not this Scriptural errata? No, no; there is nothing haphazard about the Bible. This passage of Scripture was as certainly intended to be put in the Bible as the passage, "In the beginning God created the heavens and the earth," or, "God so loved the world that He gave His only begotten Son."

And I select it for my text to-day because it is charged with practical and tremendous meaning. By the people of God the Philistines had been conquered, with the exception of a few giants. The race of giants is mostly extinct, I am glad to say. There is no use for giants now except to enlarge the income of museums. But there were many of them in olden times. Goliah was, according to the Bible, eleven feet four and a half inches high. Or, if you do not believe the Bible, the famous Pliny, a secular writer, declares that at Crete by an earthquake a monument was broken open, discovering the remains of a giant forty-six cubits long, or sixty-nine feet high. So, whether you prefer sacred or profane history, you must come to the conclusion that there were in those olden times cases of human altitude monstrous and appalling. David had smashed the skull of one of these giants, but there were other giants that the Davidean wars had not yet subdued, and one of them stands in my text. He was not only of Alpine stature, but had a surplus of digits. To the ordinary fingers was annexed an additional finger, and the foot had also a superfluous addendum. He had twenty-four terminations to hands and feet where others have twenty. It was not the only instance of the kind. Tavernier, the learned writer, says that the Emperor of Java had a son endowed with the same number of extremities. Volcatius, the poet, had six fingers on each hand. Maupertius, in his celebrated letters, speaks of two families near Berlin similarly equipped of hand and foot. All of which I can believe, for I have seen two cases of the same physical superabundance. But this giant of the text is in battle, and as David, the dwarf warrior, had dispatched one giant, the brother of David slays this monster of my text, and there he lies after the battle in Gath, a dead giant. His stature did not save him, and his superfluous appendices of hand and foot did not save him. The probability was that in the battle his sixth finger on his hand made him clumsy in the use of his weapon and his sixth toe crippled his gait. Behold the prostrate and malformated giant of the text: "A man of great stature whose fingers and toes were four and twenty, six on each hand and six on each foot; and he also was the son of the giant. But when he defied Israel, Jonathan, the son of Shimea, David's brother, slew him."

Behold how superfluities are a hinderance rather than a help! In all the battle at Gath that day there was not a man with ordinary hand and ordinary foot and ordinary stature that was not better off than this physical curiosity of my text. As physical size is apt to run in families the probability is that this brother of David who did the work was of an abbreviated stature. A dwarf on the right side is stronger than a giant on the wrong side, and all the body and mind and estate and opportunity that you can not use for God and the betterment of the world is a sixth finger and a sixth toe and a terrific hinderance. The most of the good done in the world and the most of those who win the battles for the right are ordinary people. Count the fingers of their right hand and they have just five, no more and no less. One Dr. Duff among missionaries, but three thousand missionaries that would tell you they have only ordinary endowment. One Florence Nightingale to nurse the sick in conspicuous places, but ten thousand women, who are just as good nurses, though never heard of. The Swamp Angel was a big gun that during the war made a big noise, but muskets of ordinary caliber and shells of ordinary heft did the execution. President Tyler and his Cabinet go down the Potomac one day to experiment with the Peacemaker, a great iron gun that was to affright with its thunder foreign navies. The gunner touches it off and it explodes and leaves Cabinet Ministers dead on the deck, while at that time, all up and down our coast were cannon of ordinary bore able to be the defense of the Nation and ready at the first touch to waken to duty. The curse of the world is big guns. After the politicians who have made all the noise go home hoarse from angry discussion on the evening of the first Monday in November the next day the people with the silent ballots will settle every thing and settle it right, a million of the white slips of paper they drop making about as much noise as the fall of an apple blossom.

Clear back in the country to-day there are mothers in plain apron and shoes fashioned on a rough last by the shoemaker at the end of a lane rocking babies that are to be Martin Luthers and the Faradays and the Edisons and the Bismarcks and the Gladstones and the Washingtons and the George Whitefields of the year 1938, and who will make the twentieth century so bright that this much-lauded nineteenth in comparison will seem a part of the dark ages. The longer I live the more I like common folks. They do the world's work, bearing the world's burdens, weeping the world's sympathies, carrying the world's consolation. Among lawyers we see rise up a Rufus Choate or a William Wirt or a Samuel L. Southard, but society would go to pieces to-morrow if there were not thousands of common lawyers to see that men and women get their rights. A Valentine Mott or a Willard Parker rises up eminent in the medical profession, but what an unlimited sweep would pneumonia and diphtheria and scarlet fever have in the world if it were not for ten thousand common doctors. The old physician in his gig rolling up the lane of the farm-house or riding on horseback, his medicines in the saddle-bags, arriving on the ninth day of the fever, and coming in to take hold of the pulse of the patient, while the family, pale with anxiety, are looking on and waiting for his decision in regard to the patient, and hearing him say: "Thank God, I have mastered the case, he is getting well," excites in me an admiration quite equal to the mention of the names of the great metropolitan doctors, Pancoast or Gross or Joseph C. Hutchison of the past, or the illustrious living men of the present.

Yet what do we see in all departments? People not satisfied with ordinary spheres of work and ordinary duties. Instead of trying to see what they can do with a hand of five fingers they want six. Instead of usual endowment of twenty manual and pedal addenda they want twenty-four. A certain amount of money for livelihood and for the supply of those whom we leave behind us after we have departed this life is important, for we have the best authority for saying: "He that provideth not for his own and especially those of his own household is worse than an infidel, but the large and fabulous sums for which many struggle, if obtained, would be a hinderance rather than an advantage. The anxieties and annoyances that those have whose estates have become plethoric can only be told by those who possess them. It will be a good thing when, through your industry and public prosperities, you can own the house in which you live. But suppose you own fifty houses and you have all those rents to collect and all those tenants to please. Suppose you have branched out in business successes until in almost every direction you have investments. The fire bell rings at night, you rush up-stairs to look out of the window to see if it is any of your mills. Epidemic of crime comes and there are embezzlements and abscondings in all directions, and you wonder whether any of your bookkeepers will prove recreant. A panic strikes the financial world, and you are like a hen under a sky full of hawks and trying with anxious cluck to get your overgrown chickens safely under wing. After a certain stage of success has been reached you have to trust so many important things to others that you are apt to become the prey of others, and you are swindled and defrauded, and the anxiety you had on your brow when you were earning your first thousand dollars is not equal to the anxiety on your brow now that you have won your three hundred thousand. The trouble with such a one is he is spread out like the unfortunate one in my text. You have more fingers and toes than you know what to do with. Twenty were useful, twenty-four is a hindering superfluity. Disraeli says that a King of Poland abdicated his throne and joined the people and became a porter to carry burdens. And some one asked him why he did so, and he replied: "Upon my honor, gentlemen, the load which I quit is by far heavier than the one you see me carry. The weightiest is but a straw when compared to that world under which I labored. I have slept more in four nights than I have during all my reign. I begin to live and to be a king myself. Elect whom you choose; for me who am so well, it would be madness to return to court."

"Well," says somebody, "such overloaded persons ought to be pitied, for their worriments are real and their insomnia and their nervous prostration are genuine." I reply that they could get rid of the bothersome surplus by giving it away. If a man has more houses than he can carry without vexation, let him drop a few of them. If his estate is so great he can not manage it without getting nervous dyspepsia from having too much, let him divide up with those who have nervous dyspepsia because they can not get enough. No! they guard their sixth finger with more care than they did the original five. They go limping with what they call gout and know not that, like the giant of my text, they are lamed by a superfluous toe. A few of them by large charities bleed themselves of this financial obesity and monetary plethora, but many of them hang on to the hindering superfluity till death, and then, as they are compelled to give the money up anyhow, in their last will and testament they generously give some of it to the Lord, expecting no doubt that He will feel very much obliged to them.

Thank God that once in a while we have a Peter Cooper who, owning an interest in the iron-works at Trenton, said to Mr. Lester: "I do not feel quite easy about the amount we are making. Working under one of our patents we have a monopoly, which seems to me something wrong. Everybody has to come to us for it and we are making money too fast." So they reduced the price, and this while our philanthropist was building Cooper Institute, which mothers a hundred institutes of kindness and mercy all over the land. But the world had to wait 5,800 years for Peter Cooper. I am glad for the benevolent institutions that get a legacy from men who during their life were as stingy as death, but who in their last will and testament bestowed money on hospitals and missionary societies; but for such testators I have no respect. They would have taken every cent of it with them if they could and bought up half of Heaven and let it out at ruinous rent or loaned their money to celestial citizens at two per cent. a month and got a corner on harps and trumpets. They lived in this world fifty or sixty years in the presence of appalling suffering and want and made no effort for their relief. The charities of such people are for the most part in "paulo-post future" tense, and they are going to do them. The probability is that if such a one in his last will by a donation to benevolent societies tries to atone for his life-time close fistedness the heirs at law will try to break the will by proving that the old man was senile or crazy, and the expense of the litigation will about leave in the lawyers' hands what was meant for the American Bible Society.

O ye overweighted, successful business men, whether this sermon reach your ear or your eye, let me say that if you are prostrated with anxieties about keeping or investing these tremendous fortunes, I can tell you how you can do more to get your health back and your spirits raised than by drinking gallons of bad-tasting water at Saratoga, Hamburg or Carlsbad—give to God and humanity the Bible ten per cent. of all your income, and it will make a new man of you, and from restless walking of the floor at night you shall have eight hours' sleep without the help of bromide of potassium, and from no appetite you will hardly be able to wait your regular meals, and your wan cheeks will fill up, and when you die the blessings of those who but for you would have perished will bloom all over your grave with violets if it be spring, or gladiolus if it be autumn.

Perhaps some of you will take this advice, but the most of you will not. And you will try to cure your hand by getting on it more fingers, and your rheumatic foot by getting on it more toes, and there will be a sigh of relief when you are gone out of the world; and when over your remains the minister recites the words: "Blessed are the dead who die in the Lord," persons who have keen appreciation of the ludicrous will hardly be able to keep their faces straight. But whether in that direction my words do good or not, I am anxious that all who have only ordinary equipment be thankful for what they have and rightly employ it. I think you all have, figuratively as well as literally, fingers enough. Do not long for hindering superfluities. Standing in the presence of this fallen giant of my text and this post-mortem examination of him, let us learn how much better off we are with just the usual hand, the usual foot. You have thanked God for a thousand things, but I warrant you never thanked Him for those two implements of work and locomotion, that not one but the infinite and omnipotent God could have ever planned or made the hand and the foot. Only that soldier or that mechanic who in battle or through machinery has lost them knows any thing about their value, and only the Christian scientist can have any appreciation of what Divine masterpieces they are.

Sir Charles Bell, the English surgeon, on the battle-field of Waterloo, while engaged in amputations of the wounded, was so impressed with the wondrous construction of the human hand that when the Earl of Bridgewater gave forty thousand dollars for essays on the wisdom and goodness of God, and eight books were written, Sir Charles Bell wrote his entire book on the wisdom and goodness of God as displayed in the human hand. The twenty-seven bones in the hand and wrist with cartilages and ligaments and phalanges of the fingers all made just ready to knit, to sew, to build up, to pull down, to weave, to write, to plow, to pound, to wheel, to battle, to give friendly salutation. The tips of its fingers are so many telegraph offices by reason of their sensitiveness of touch. The bridges, the tunnels, the cities of the whole earth are the victories of the hand. The hands are not dumb, but often speak as distinctly as the lips. With our hands we invite, we repel, we invoke, we entreat, we wring them in grief or clap them in joy or spread them abroad in benediction. The malformation of the giant's hand in the text glorifies the usual hand. Fashioned of God more exquisitely and wondrously than any human mechanism that was ever contrived, I charge you use it for God and the lifting of the world out of its moral predicament. Employ it in the sublime work of Gospel hand-shaking. You can see the hand is just made for that. Four fingers just set right to touch your neighbor's hand on one side and your thumb set so as to clench it on the other side. By all its bones, and joints, and muscles, and cartilages, and ligaments, the voice of nature joins with the voice of God commanding you to shake hands. The custom is as old as the Bible, anyhow. Jehu said to Jehonadab: "Is thine heart right as my heart is with thine heart? If it be, give me thine hand."

When hands join in Christian salutation a Gospel electricity thrills across the palm from heart to heart, and from the shoulder of one to the shoulder of the other. Shake hands all around. With the timid and for their encouragement, shake hands. With the troubled and in warm-hearted sympathy, shake hands. With the young man just entering business and discouraged at the small sales and large expenses, shake hands. With the child who is new from God and started on unending journey for which he needs to gather great supply of strength and who can hardly reach up to you now, because you are so much taller, shake hands. Across cradles and dying beds and graves, shake hands. With your enemies who have done all to defame and hurt you, but whom you can afford to forgive, shake hands. At the door of churches where people come in, and at the door of churches where people go out, shake hands. Let pulpit shake hands with pew, and Sabbath day shake hands with week day, and earth shake hands with Heaven. Oh, the strange, the mighty, the undefined, the mysterious, the eternal power of an honest hand-shaking. The difference between these times and the millennial times is that now some shake hands but then all will shake hands, throne and footstool, across seas, nation with nation, God and man, church militant and church triumphant.

Yea, the malformation of this fallen giant's foot glorifies the ordinary foot, for which I fear you have never once thanked God. The twenty-six bones of the foot are the admiration of the anatomist. The Arch of the foot fastened with a grace and a poise that Trajan's arch at Beneventum or Constantine's arch at Rome or the arch of Triumph at the end of the Champs Elysees could not equal. Those arches stand where they were planted, but this arch of the foot is an adjustable arch, a yielding arch, a flying arch, and ready for movements innumerable. The human foot is so fashioned as to enable man to stand upright as no other creature, and leave the hand that would otherwise have to help in balancing the body free for any thing it chooses. The foot of the camel fashioned for the sand, the foot of the bird fashioned for the tree branch, the foot of the hind fashioned for the slippery rock, the foot of the lion fashioned to rend its prey, the foot of the horse fashioned for the solid earth, but the foot of man made to cross the desert, or climb the tree, or scale the cliff, or walk the earth, or go anywhere he needs to go. With that Divine triumph of anatomy in your possession, where do you walk? In what path of righteousness or what path of sin have you set it down? Where have you left the mark of your footsteps? Amid the petrifications in the rocks have been found the mark of the feet of birds and beasts of thousands of years ago. And God can trace out all the footsteps of your lifetime, and those you made fifty years ago are as plain as those made in the last soft weather—all of them petrified for the judgment day.

Oh, the foot! How Divinely honored not only in its construction but in the fact that God represents Himself in the Bible as having feet: "The clouds on the dust of His feet." "Darkness was under His feet," "The earth is My footstool." And representing cyclones and euroclydons and whirlwinds and hurricanes as winged creatures He describes Himself as putting His foot on these monsters of the air and walking from pinion to pinion, saying: "He walketh upon the wings of the wind." "Thou hast put all things under His feet," cries the psalmist. Oh, the foot! Give me the autobiography of your feet from the time you stepped out of the cradle until to-day and I will tell your exact character now and what are your prospects for the world to come.

That is the most beautiful foot that goes about paths of greatest usefulness, and that the most beautiful hand that does the most to help others. I was reading of three women who were in rivalry about the hand. And the one reddened her hand with berries and said the beautiful tinge made her's the most beautiful. And another put her hand in the mountain brook and said, as the waters dripped off, that her hand was the most beautiful. And another plucked flowers off the bank and under the bloom contended that her hand was the most attractive. Then a poor old woman appeared, and looking up in her decrepitude asked for alms. And a woman who had not taken part in the rivalry gave her alms. And all the women resolved to leave to this beggar the question as to which of all the hands present was the most attractive, and she said: "The most beautiful of them all is the one that gave relief to my necessities," and as she so said her wrinkles and her rags and her decrepitude and her body disappeared, and in place thereof stood the Christ who long ago said: "Inasmuch as ye did it to one of the least of these ye did it to Me!" and who to purchase the service of our hand and foot here on earth or in resurrection state had His own hand and foot lacerated.

Eat With Comfort and be Happy.

It is by no means uncertain, but, on the contrary, a well ascertained fact, that upon the well being of man's stomach depends that modicum of happiness which is vouchsafed to him in this world. Dyspepsia, the foe of all others to the stomach's tranquility, and most to be dreaded, is a complaint to the preliminary relief and eventual cure of which Hostetter' Stomach Bitters is specially adapted. It enables those who use it with a reasonabl degree of persistence to eat with relish, because it imparts a healthful appetite; to digest with ease, because it strengthens the stomach; and to assimilate the food that is eaten and digested, thus benefiting health, promoting flesh and sustaining the exercise of the physical and mental faculties. It, moreover, facilitates the secretion of healthy bile, acuates without discomfort the habit of body, and tends, when taken upon retiring, to produce healthy slumber. Malaria is conquered by it.

DRUNKENNESS
Or the Liquor Habit, Positively Cured by Administering Dr. Haines' Golden Specific.
It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effect a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge and to-day believe they quit drinking of their own free will. IT NEVER FAILS. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. For sale by FRANK SHERER, Druggist, 6 W. THEIR VISIT TO HARRISON.

Janesville Republicans Preparing for the Indianapolis Trip.

The Badger State Train Will Leave Janesville Friday October 5th.

A delegation of Wisconsin republicans will visit General Harrison at Indianapolis on Friday Oct. 5th, the train leaving Madison at one o'clock in the morning, and Janesville at 2:15 a. m., fare for the round trip will be five dollars. This special train will reach Indianapolis by one o'clock on Friday afternoon, and will be received by General Harrison in one of the parks. Arrangements are being made to have the Bower City Band to lead the delegation.

Many republicans have expressed a desire to join the excursion from this city. Captain W. T. Vankirk, of the county committee, has therefore made arrangements that all can be accommodated from this point for the low fare of five dollars for the round trip, and requests that all who intend to participate will leave their name with King & Skelly, at their book store, near the postoffice; A. P. Burnham, at the American Express office, W. T. Vankirk, grocer, South Main street, or at the Gazette office, by Wednesday, Oct. 3d, that car accommodations may be had. Remember that this is one of the cheapest excursions of the season, besides the excursion train will pass through Illinois and Indiana in the day time.

THEIR ASHES AT REST.

The Remains of Mr. and Mrs. O. Judson Brought to Janesville.

The remains of the late Orrin Judson and wife arrived in this city from California yesterday afternoon, and were met at the depot by a number of family friends and conveyed to the Baptist church, both being in metalic cases and wooden boxes.

Mr. Judson died at San Jose on May 23d, 1885, of apoplexy, and was sixty-five years of age. His widow, Mrs. Sarah E. Judson, died in the same city on September 17th, 1888, of heart disease, aged fifty-four years. Being former residents of Janesville, they expressed a wish to be buried in Oak Hill cemetery, and on the death of Mrs. Judson, the remains of Mr. Judson were disinterred by a brother of Mrs. Judson, who accompanied them to this city.

The funeral services were held at the Baptist church at two o'clock this afternoon, the Rev. Dr. M. G. Hodge conducting the same, at the conclusion of which the remains were taken to Oak Hill and laid at rest. The pall bearers were: Messrs. A. C. Kessegnie, Frank Dano, J. C. Fredendall, A. F. Hall, Geo. Hield and Charles Sexton.

REPUBLICAN MEETING.

At the Invincibles' Armory Last Evening—Brief Speeches.

A goodly number of republicans responded to the call for a meeting at the Invincibles' Armory on the raceway last evening, and were called to order by President Stanley B. Smith, of the Republican club, who stated the objects of the meeting, and necessity for a thorough organization. Mr. O. F. Nowlan was called to the chair, and brief addresses were made by Messrs. A. A. Jackson, B. F. Dunwiddie, M. S. Jeffris, Gilbert Hogan, of Ohio, Fenner Kimball, Chas. Blay, Dr. Warren, and others.

Mr. Jackson has just returned from New York, where he had met many prominent men, and stated that according to the best information obtainable, the republicans would carry the state by 25,000 to 50,000 majority.

Dr. Warren felt reasonably sure that the republicans would elect their candidates and carry every northern state.

The other speakers spoke more particularly on the tariff question and of protections to home industries.

The question of perfecting the organization was deferred until Friday evening, in the meantime the armory, which has been donated by Messrs. O. H. Fethers and M. S. Jeffris, will be fitted up for the meetings, and undoubtedly hereafter there will be weekly meetings at this place where brief speeches will be made on the issues of the campaign.

Verbal reports were listened to and the meeting adjourned until Friday evening at 7:30 o'clock.

—Evansville greeted the Templeton Opera Company with a full house, and even forebore from mobbing them after the show. This morning the company passed through town on their way to Monroe.

—Among the coming attractions at the opera house is that favorite Irish comedian W. J. Scanlon. Mr. Scanlon will be in Janesville October 10th. The news will be hailed with delight by Janesville theatre goers.

—Ample encouragement should be given the ladies who will soon call on Janesville people to arrange for the entertainment of singers during the state convention. "Who knows," said one officer of the society. "You may entertain angels unawares."

—The Hon. J. C. Bartholf addressed a republican rally at Milton, last evening. Though only a brief notice of the meeting had been given he was greeted by a large audience. His speech was devoted mostly to the tariff and was received with much enthusiasm. Milton is wide awake for Harrison and Morton.

—Mrs. Rev. T. Walker's Sunday school class happily surprised their teacher last evening by calling at her residence. The evening was passed in a pleasant social manner. Before they parted they presented her with an "individual silver castor" as a token of their esteem, which she greatly appreciates.

—Janesville was not behind other cities in helping emancipate the slave from the chains of slavery. Let her see to it she helps emancipate him from the chains of ignorance. This may be done in a small way by attending the Fisk University Glee Club concert at the Congregational church to-morrow evening. Admission 25 cents. Children 15 cents.

—The Janesville Associated Charities is now organized for their winter work, and will occupy the same rooms in the Jackman block as last season. They request those having second hand clothing for either sex, or second hand school books, and wish to help along the good work, to send them to these rooms and good use will be made of all such articles.

—Mr. Frank B. Phelps, formerly of this city, has been offered the position as editor on the Hancock Copper Journal. His duties as city editor of the Green Bay Gazette will therefore end October 1st. Mr. Phelps is the son of Mr. and Mrs. M. M. Phelps, of this city. He has shown by his work at Green Bay an unusual degree of ability and newspaper instinct, and his friends will expect much from him in years to come.

—Congressman Caswell addressed a fine audience on the issues of the campaign in the Beloit Opera House last night. To-day's Sentinel says: "This speech was replete with tariff facts and his explanation of the surplus threw much new light on that vexed question. That Congressman Caswell will be re-elected is without reasonable doubt, and that he will receive the full and hearty support of the republicans of this place is a certainty."

—Railway Postal Clerk Smith, who has been in the service for the past fourteen years, and now running on the Chicago, Milwaukee & St. Paul railway between Rockford and Mineral Point, has been "bounced," and Mr. M. J. Sullivan, Secretary of the Cleveland and Thurman club, of this city, appointed in his place. "Offensive partisanship" is probably the only charge brought against Mr. Smith, that being deemed sufficient cause for removal of any republican by the democrtic "reform" administration. Barring his "offensive partisanship," Mr. Sullivan is a first-rate fellow, and will no doubt make an efficient officer should the incoming administration allow him to retain the position long enough to become familiar with the intricate duties of the position.

SOME JANESVILLE HENS.

One or Two That Merit Public Notice.

"Speakin' about hens," said the Oldest Inhabitant, "speakin' about hens reminds me."

No one had spoken about hens; but the Oldest Inhabitant's peculiarities were understood, and the crowd listened while he went on.

"I had a hen down in York state in '43 that c'd beat any hen settin' that I ever see. Why she use t' set on a china egg and hatch out milk pitchers and coffee cups. We got her so she know her own name, and she'd lay eggs with her name blown in the shell. My youngest son was goin' to develope her eye for color and get her to letter the eggs in blue, so we c'd sell 'em for Easter eggs, but he died just too soon, poor boy."

"Don't you think," broke in the Weather Prophet, "that what a hen sets on makes a difference with what she lays. Now, one of my hens goes over and sets on the hearse in a livery stable sometimes, and when she does, the next night she's sure to lay awake."

The Oldest Inhabitant sniffed scornfully.

"I wouldn't have that kind of a hen around the place," he said. "The one I had last summer would be more good th'n a dozen. Just before my dinner time she use t' stand out in the hot sun a while and then go in and lay enough hard-boiled eggs for a mess. Finally I tried a new scheme. I shut her up in one of these new-fangled peanut roasters and started the roaster going. When it stopped that hen had laid the nicest dish of scrambled eggs you ever see. She got so, before the hot weather ended that she'd set there with pepper in one foot and salt in the other and lay enough ham omelete for the hull family. But then, those were pretty hot days. Hello, fellows; where you all goin'?"

HE OBJECTS TO THE NOTE.

Partnership Matters Aired in the Municipal Court.

George W. Irish, a the blind tea merchant is one of the defendants in a civil suit before Judge Paterson.

For many years Mr. Irish, followed by his toy wagon full of samples, has been a familiar figure on Janesville streets. Some time ago, however, he engaged in the grocery business at Clinton with Herbert R. Mayberry, but the partnership was afterwards disolved.

The Citizens National Bank, of Clinton, now comes forward with a note for five hundred dollars, which purports to be signed by the firm. Mr. Irish insists that the partnership was dissolved before the date on which the note in question was made and that he, therefore, cannot be held responsible. Judge Patterson has the evidence in the case under consideration.

Oft obscure the road that leads to health,
Unmarked by board or sign:
Wisdom avails not, powerless is wealth
To sooth those aches of thine.
But do not despair with life there's hope.
The cloud conceals the sun;
With Pierce's Favorite Prescription at hand
You life's full course may run.

More truth than poetry in these lines, as the thousands of ladies all over the land now blooming with health, testify to the great curative powers of Dr. Pierce's Favorite Prescription, adapted by much research and careful study to the happy relief of all those weaknesses and ailments peculiar to females. Disastrous Floods in India.

LONDON, Sept. 25.—One hundred and fifty square miles of land in the Berdwan district of Bengal is flooded. The crops in Bombay and Deccan are threatened by drought. The Government is preparing to take measures of relief.

The Whipping Post.

WILMINGTON, Del., Sept. 25.—Seventeen criminals were sentenced to be whipped at the fall term of the criminal court, and Saturday morning the sheriff administered the lashes, which numbered 225.

Renew Her Youth.

Mrs. Phoebe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness; and am able to do my own housework. I owe my thanks to Electric Bitters for having renewed my youth and removed completely all disease and pain." How Doctors Conquer Death.

Doctor Walter K. Hammond says: "After a long experience I have come to the conclusion that two-thirds of all deaths from coughs, pneumonia and consumption, might be avoided if Acker's English Cough Remedy were only carefully used in time." This wonderful remedy is sold under a positive guarantee by Prentice & Evenson, druggist.

LIFE AMONG LEAF DEALERS.

It Begins to Take On a Rosier Aspect —Brief Notes.

The boom for Wisconsin leaf in New York last week gave new spirit to buyers around Janesville. Several large contracts were made, but the prices are, as yet, private.

Wisconsin leaf has gone into the sheds this year in unusually good condition. In this it was different from eastern leaf.

The New England states have had a most serious visitation from frosts. The cigar leaf tobacco crops in Connecticut and New York State were also seriously damaged by the frosts of September 6. According to the reports in circulation among the tobacco men in New York, about a third of the crop is nearly, if not completely, destroyed. The crop was a very fine one, and the farmers had about two-thirds of it in when the frost came with destructive results to the one-third still remaining in the field. In the Housatonic Valley in Connecticut the damage was complete, and in the Connecticut Valley it was very bad.

The United States Tobacco Journal says of the New York city market: "The largest transactions lately have been made in Wisconsin, of which about 2,000 cases have changed hands at 12½ to 14 cents. Next follows Onondaga with 700 cases at about the same figures. The Pennsylvania Havana, which was ushered in with such loud trumpeting, is quietly waiting for the redeemer."

WANTS HIS MONEY NOW.

Judge Patterson Investigates a Real Estate Sale.

S. P. Hoskins' suit against F. C. Grant is now pending in Judge Patterson's court. It grew out of a real estate deal and involves the matter of commissions.

Mr. Grant placed in the hands of Mr. Hoskin a piece of residence property with instructions to sell if a specified figure could be obtained. Mr. Hoskins now claims to have found a buyer and asks for his commission.

But, although the agreement to purchase has been made, it provides for payment by slow instalments. The first payment is not to be made until January 1st. Mr. Grant objects to paying for the sale until it is closed by the payment of this first installment, and on this point the dispute has arisen. Judge Patterson will decide the matter to-morrow.

The chief agent in lengthening life by producing perfect health, is Vinegar Bitters.

A PASTOR'S THANKS.

To the Editor.

Through the medium of your valuable paper permit me to reach those citizens of Janesville, who, during my teirteen years' sojourn in your beautiful city have taken an interest in the German Lutheran church of this place, and with whom I have come in contact in a business or social way; to thank them heartily for the interest exhibited and the kindness shown me and my family. As long as life lasts I shall not forget the Bower City on the Rock, and her people. May God protect and bless them.

Your humble servant,
J. SCHLERF.

A SENSATION.

The people are getting crazy over the Moxie Nerve Food. All the nervous, weakly women are talking about it because it takes that terrible tired feeling away so quick and keeps it off on 2 cents worth of the syrup per day. It is an artificially digested nerve food only. The nerves are as bad, for it breaks up the effects of dissipation and overwork in a few hours and no stimulation or reaction. It is a newly discovered process of preparing the food used by the nerves, artificially, for the purpose of giving people their full complement of nerve power, when the stomach is not able to digest it for that purpose. Overworked people take enormous quantities of it. It contains neither medicine nor alcohol.

How They Wake Up.

The flowers were soundly sleeping;
A wind blew up so chill;
But soon the sun came peeping,
On tip-toe, o'er the hill.
And it's "Wake up, now, my pretties,"
Warm sunbeams softly said,
"Or the birds will catch you napping—
Wake up, each sleepy head!"

Pale lilies bow sedately;
Meek violets nod and glance;
Proud roses bend, so stately;
Wee daisies fairly dance;
With dewy eyes a-twinkle,
Pink clover buds look up,
And join in merry courtesies
Pansy and buttercup.

"Dear sun, good-morning to you!"
A thousand sweet lips say;
"Oh! very well we know you,
Tho long you've been away."
And a little brook laughed softly,
By rock and moss and tree,
As it ran to tell the meadows
How polite the flowers could be!
—*George Cooper, in N. Y. Independent.*

A Mistake.

A yell rang out!
The distant wood
Re-echoed with the cry
'Twas such a shout
As Stentor could
Not equal did he try.
I hastened there—
The quiv'ring air
Seemed racked as if with pain;
And saw a maid
Deep in the glade,
Shrieking with might and main.
Springing to her I asked to know
What made her yell and tremble so;
She said she'd plucked a bumble-bee,
Thinking it was a black-berree.
—*Binghamton Republican.*

His Boy Had Graduated.

I'm gettin' awful fretted
At that college boy of mine,
He's up in Greek and Latin,
But he doesn't know a line
Of common sense and gumption—
He can float among the stars,
But on earth he ain't got sense enough
To fasten up the bars.
To give the size of sun or moon
He does it awful quick,
But he couldn't tell, ter save his soul,
The size of this 'ere brick.
He tells about geology,
About volcanic craters,
But's blank whene'er I ask him
Why the moles root up my taters.
He gives a full account of brutes,
Can tell of fossil bones,
How cum 'em yards below the ground
Locked up in rocks and stones;
But the boy gets awful fretted,
Gets disgusted, mad and cross
When I ask for information
How cum wen-galls on my hoss.
He knows all hist'ry, my boy does.
Can tell of Alexander;
He knows that Colonel Cæsar
Was of old the boss commander;
But he's blunted like a meat axe,
So astonished is he taken,
When I ax him what they're payin'
In the city now for bacon.
He can rattle off the Latin nouns,
Can congregate the verbs,
Can string a reg'lar army out
Of dictionary words;
But I'll swan I couldn't help it,
I jist had to roar and laugh
When I seed him take big ears of corn
To feed a suckin' calf.

MAGNOLIA.

—Elder Thomas preached his farewell sermon last Sunday to a large congregation. Next Sunday Elder Jameson will fill the Methodist pulpit.

—Quite a number went from here to attend the yearly meeting in Center last week, and all feel repaid for their trouble.

—The Magnolia martial band headed the republican torchlight procession in Evansville Saturday night.

A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relied on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at F. Sherer & Co's. Drug store.

A NEW TARIFF BILL.

The Senate Committee at Last Finishes Its Work.

THE RESULT SOON TO BE MADE KNOWN.

Protection the Corner-Stone of the New Measure—It Will Cut Down the Revenue About $65,000,000—An Outline of the Bill.

FROM A REPUBLICAN STAND-POINT.

WASHINGTON, Sept. 25.—The sub-committee of the Senate Finance Committee has completed its Tariff bill, and will submit it to the full committee to-day The bill, as heretofore stated, proposes to reduce the revenue about sixty-five million dollars. Senators in charge of the bill say they will not make it public until the minority report, which Senator Beck is preparing at Fortress Monroe, is completed. It is estimated that a month's time will be required for discussion of the bill.

Senator Allison says the majority in the Senate will oppose any effort of the House to adjourn Congress during the consideration of the Tariff bill, and it is believed that the recess for the election will not be taken under a month yet. The 25th of October is mentioned most frequently as the date for a recess or adjournment, on account of the election.

CHICAGO, Sept. 25.—A Washington special to the *Tribune* says of the Senate Tariff bill:

"The measure will not be made public yet awhile. This is out of courtesy to the Democratic minority of the committee. The bill is an exhaustive one. It covers 100 printed pages and is the outcome of a vast amount of patient labor by Senator Allison and his colleagues. Its main points have been frequently stated and the material changes from the original plan have been few. Concessions have had to be made on both sides, and, while the bill is not in every respect what most of the Western Senators would like, they will be found in hearty accord with the main provisions. It is a distinctively protection bill. The sugar cut of 50 per cent. is there, and in addition to this, while no radical change is made in the classification, the consumer is given the benefit of one-fourth of a cent a pound over the refiner. The aim has not been to drive refiners out of legitimate business, but to break up the trust which the big sugar monopolists have formed. Rice is also cut 50 per cent. Manilla, sisal grass and jute are put on the free list, but hemp and flax are let alone. The metal changes are not as heavy as at first proposed, steel rails being cut only $1.32 per ton, but this is understood to be only temporary and the measure will ultimately put them at $11 or a reduction of $3 per ton. Tin plate is not touched. Lumber and salt, and, in fact, most of the Canadian products which would open up a United States market to the Dominion without any equivalent to the United States, are not touched. These points were carefully gone over, and it was agreed that commercial union and the free interchange of products would not be hastened by the United States making radical reductions without concessions on the part of Canada. The duty on fine wool is raised one cent per pound, but the chief changes in this schedule have been in equalizing woolens and worsteds. Alcohol in the arts is made free, but under stringent regulations which guard absolutely against fraud. As the bill stands at present the entire tobacco tax is wiped out, but this is not final. The House cut it about four-fifths, but left the tax on cheroots, cigars and cigarettes with the necessity of keeping up an army of office-holders. The sub-committee was of the opinion that so long as the tax was substantially abolished it was not worth while to keep a lot of office holders. It was found that the cigar-makers themselves were evenly divided on the subject. The impression had seemed otherwise, but when the committee came to hear both sides this was the conclusion reached. Chemicals make up the larger part of the free list, and of the drugs from which the duty is entirely removed opium is the most important. The revised estimate of the reductions has not yet been made, but the total will reach $70,500,000.

"The fact on which great emphasis will be laid is that the bill when before the Senate is not to be put through under any caucus or party rule. The report will state that the committee, despite its close labors, has not been able to make all the investigation it wanted, and that the measure will be subject to changes from time to time as the discussion and new information may suggest. Every clause of it will be publicly discussed, and hearings will be given right along. But every thing will be in the light of day and the whole country will know what is going on. In the House the Democratic majority absolutely refuse to accept any amendment coming from the minority. They treated the whole subject as a party matter. The Senate proposes that tariff legislation shall be conducted as a business question. The time for making public the bill and the reports on it has not yet been fixed, but this will probably be done a week from to-day. The delay will be that the minority may complete their report.

"Senators Harris and Vance are the only Democratic members of the Finance Committee in the city to be present at the meeting today. The minority, however, has its report pretty well along. Its members have known from the start what was being done, and Senator Beck, notwithstanding his sickness, has superintended the preparation of the report. All the resources of the Treasury Department have been at his disposal and a great deal of material has been gathered. It is understood that the minority will deal largely in citations from what Senators Morrill, Allison and Sherman have said on the subject in years past.

"It is the present purpose of the majority to oppose any movement for an adjournment until the bill is passed, and if this shall not have happened long enough before election a recess will be proposed, beginning between the 20th and 25th of October."
